

Daplast stadium seats for the FIFA U-17 Women's World Cup Costa Rica 2014

Daplast has supplied stadium seats for the stadiums of Liberia and Alajuela, 2 of the 4 host cities.

Besides Edgardo Baltodano Stadium, Daplast has supplied stadium seats for another football stadium that also hosts the current FIFA U17 Women's World Cup: the Alejandro Morera Soto stadium. The Final of the Championship will be played on the 4th of April.

The selected seat is the CR5 model, the same seat that is installed at the stadium of Liberia.

The Worldcup is played in four cities: Liberia, Alajuela, Tibás and San José. At the Edgardo Baltonado Stadium, in Liberia, an important match took place between the teams from Spain and Paraguay last week. Finally, the Spanish team won and reached the quarter finals. This photo from the twitter account: @sefutbol shows the Spanish team going to the playing field of the Liberia stadium and or CR5 seats in yellow color.

The Alejandro Morera stadium is owned by the club La Liga Deportiva Alajuelense (LDA) which is among Costa Rica's leading sides, with an honour list that includes 29 league titles and 20 times runners-up. This stadium is named after a former star of both LDA and the national team.

More photos of this stadium are available at this link. (<http://www.daplast.com/english/sports-facilities/facility/827>)
