

**WashMatic WM800**

RELEASE 2020

passion for sports grounds

# WashMatic

**WM800**

**Ride-on machine for the cleaning of synthetic sports surfaces by high pressure water.**

The WashMatic is powered by a 25 hp water-cooled diesel engine. The front attachment cleans synthetic sports surfaces, e.g. nonfilled artificial grass, jogging tracks, multi-purpose playing fields or similar surfaces by high pressure water. The spray pressure can be adjusted. The rotating spray lance works with up to 140 bar. The water requirement per minute is 50 liters and is usually provided by the water supply of the sports facility. If the required amount of water is not available, the 300 liter water tank with integrated overflow valve can be used as a water buffer. In this case, an external water pump requests the fresh water from the intermediate tank to the machine. The dirty water is discharged via a drain hose. The working width of the WM800 is 800 mm; 200 - 250 m<sup>2</sup> can be cleaned per hour. The 300 liter water tank, external pump and hoses are placed on a compact trolley. This can be easily lowered by a electric winch over the ramp and positioned as needed.

Art.-No. 6231653

Drive	25 hp water-cooled diesel engine
Water pressure	up to 140 bar
Working width	800 mm
Area performance	200 - 250 m <sup>2</sup> /hour
Weight	1,600 kg
Dimensions	L 3,700 x W 1,300 x H 2,350 mm

Subject to technical alterations

**EASY HANDLING.**  
Controls and EcoBoost Drive, clearly arranged for intuitive handling.

**PRECISE.**  
Front attachment with rotating spray lance, manometer and valve to adjust spray pressure.

**INDIVIDUAL.**  
Ramp with winch for trolley with 300 litre intermediate tank, water pump and 2x 75 mtr. hoses.
